

PRESCHOOL PULLOUT

It is now required by the state to document preschool on the pullout screen.

For each preschool student, you will need to go to their district defined pullout screen 1000 and enter a course code and the teacher's id number for the teacher teaching the particular student.

Courses are as follows: **133010** - Three Years Old
134010 - Three and/or Four Years Old
144010 - Four Years Old

If you do not have the teacher in your teacher catalog, you will need to add them.

You will also need to set a planning period up for each of these preschool teachers as per yesterday's memo on planning periods.

- This planning period needs to be set up during the same time as ART you're your K-2 grade classes.
