

## View Assessment Data

These instructions will show you how to access student data in Triand. The Student Data feature in Triand is an expanding area of the software, so you can check back periodically to see what features have been added. To access student data in Triand, click on the double arrows (>>) next to the Data module to expand it.

Click on the double arrows next to the Data menu to expand and choose Data Warehouse.

Choose the Data Warehouse option for the quickest and easiest way to access student data. This option gives you quick access to ACTAAP, ITBS, and Target test data. The Target test data is labeled Benchmark.
