

What is the process for finding solutions to problems?

If you have a concern, use these procedures.

START HERE

First, call the office to schedule a meeting with the [Teacher](#).

If the issue is unresolved, schedule a meeting with the [Assistant Principal](#).

Schedule an appointment with the [Principal](#) if the problem continues.

Issues that are not resolved following a meeting with the principal should be directed to the FSPS Curriculum & Instruction Department and to the [Director of Elementary Education](#) or the [Director of Secondary Education](#).
